Medical Cannabis Grower and Processor Application Period

In order to allow potential applicants adequate time to review the high volume of questions submitted during the 30-day public comment period (January 11 – February 11, 2019), the MMCC will delay the start of the upcoming 60-day application period for medical cannabis grower and processor licenses. The MMCC is working hard to respond to each question submitted by the February 11, 2019 deadline, and update the applications and accompanying guidance materials, which MMCC anticipates posting soon. The 60-day application period will begin when the final application and guidance materials are posted and available on the MMCC website.
