

MMCC Licensee Guidance

Edible Cannabis Products

Regulations establishing the framework for the processing and distribution of edible cannabis products will be effective on April 19, 2021.

[Packaging and Labeling](#)

This guidance document provides information on new and updated requirements for the packaging and labeling of medical cannabis, including edible cannabis products.

- [A Packaging and Labeling Quick Reference](#) is also available.

[Form and Dosage](#)

This guidance document provides information on:

- Categorization of cannabis-infused products and edible cannabis products, and
- Restrictions on product form and dosage.

Ownership and Control of a Medical Cannabis License

[Ownership and Control Guidance](#)

The guidance document provides information on:

- The process, requirements, and restrictions for the transfer of an ownership interest and/or control of a medical cannabis license; and
- The required disclosures of ownership and control of a medical cannabis license.

Hemp Acquisition

[Acquisition of Hemp – FAQs](#)

- Pursuant to COMAR 10.62.22.03 and 10.62.28.03, licensed processors and dispensaries may obtain hemp from sources outside the seed-to-sale system (METRC) under certain circumstances.
- Additional information for obtaining hemp, as well as information on testing requirements, and the sale of CBD products can be found in the FAQs.

Clinical Director

[Clinical Director Guidance Document](#)

The guidance document provides information on:

- Who is eligible to serve as a clinical director;
- The responsibilities of a clinical director;
- Clinical director reporting and training requirements; and
- The process to register as a clinical director.
