

NOTICE

TO: Qualifying patients and licensed medical cannabis growers, processors, and dispensaries
RE: Changes to patient registration and fee
Date: September 29, 2022

The Maryland Medical Cannabis Commission (the “Commission”) is providing this notice to update all patients and licensed medical cannabis businesses on changes to the patient registration fee and registration period.

The Commission adopted a proposed regulatory amendment to (1) reduce the patient registration fee from \$50 to \$25, (2) reduce the replacement card fee from \$100 to \$50, and (3) extend the registration period from 3 to 6 years. The Commission also voted to implement the proposed changes in Maryland OneStop on or before October 1, 2022. As part of this effort, all valid patient registrations will be extended from 3 to 6 years without patients having to take any additional steps.

The Commission is pleased to announce that as of September 29, 2022, the adult patient registration application has been updated with the reduced application fee of \$25 and extended registration period of 6 years. Any new patient application initiated prior to September 29, but not yet submitted, should also reflect the reduced price and extended registration period. In addition, all patients with valid, active registrations will have their registration period extended from 3 to 6 years. The Commission anticipates all existing patient records will be updated with the extended 6-year registration period by October 5, 2022.
