

Process Overview: Register a Minor Patient (Under 18 years)

Step 1: Register Caregiver

Caregiver **must**:

- be a legal guardian of the minor patient
- be at least 21 years of age, and
- have a valid, accessible email account

A minor patient **must** have at least one caregiver at all times

MMCC must review and approve the caregiver's application

Once approved, caregiver registration is valid for two years

Refer to *Quick Reference: Register as a Caregiver* for instructions on how to register as a caregiver

Step 2: Register Minor Patient

Once the caregiver has submitted an application and received MMCC approval, the caregiver can register the minor patient

Registering a minor patient requires additional forms, one of which must be notarized; please review the requirements carefully

Refer to *Quick Reference: Register a Minor Patient* for instructions on how to register a minor patient
