

Process Overview: Register as an Adult Patient (18+ years)

Step 1: Submit Application

You **must** have a valid, accessible email account

Complete and submit the online application form on the MMCC Registry website

MMCC must review and approve your application. Approval indicates you are registered with MMCC; you must still obtain a valid written certification to purchase medical cannabis

Once approved, registration is valid for two years

No fee to apply

Step 2: Obtain Certification

Medical cannabis cannot be purchased without a valid written certification from a provider registered with MMCC

Certifications are valid for a maximum of one year

Please note: If nothing is dispensed from a certification within 120 days of issue, the certification expires and you will need to obtain a new certification from your provider

Step 3: Visit Dispensary

After your registration has been approved by MMCC and your provider has issued you a valid written certification, you are ready to visit a licensed Maryland dispensary to purchase medical cannabis

Step 4: ID Card (optional)

ID cards are optional for patients

An ID card cannot be purchased until a valid written certification has been obtained from a provider registered with MMCC

Patient ID card fee: \$50
